***A good Safety and Health Management System, provides a systematic way to identify hazards and control risks while maintaining assurance that these risk controls are effective.***

On many occasions this often proves to be easier said, than effectively and continuously, done.

The RUBiQ Business Efficiency Management Solution, embedded with a full complement of safety related content, is built on international standards, such as ISO 31000, ISO 9001, and fully integrated with the requirements of ISO 45001.

Thus significantly saving implementing companies time and effort, as the RUBiQ® Platform is a multi-standards compliance platform, enabling ready integration for many International Standards Management Systems.

RUBiQ Health and Safety Solution will aid any company, small, medium or large multinational, in the administration and management of your company's Health and Safety program.
